

Foundation Stage Results

All children within the foundation stage, across the country, are assessed against the early learning goals in the prime areas of learning (personal, social and emotional development; physical development; communication and language) and against the early learning goals in the specific areas of mathematics and literacy. If the children have reached the expected level they are reported as having a “good level of development”.

Currently no national averages have been released for the foundation stage, so last year’s national averages have been used for comparison.

Good Level of Development in the 5 Core Areas 2016
